

THE CHALLENGE-TO-DECISION BOARD

Move one challenge through real work and user evidence, then decide: stop, keep, or scale.

THE DECISION LAB

Do not open the next stage until evidence from the previous stage is visible on the board.

1

FRAME

Required result

Who is affected?

Problem and current workaround

Context and constraints

Why now?

Challenge statement

Evidence and source

Assumption to test

Unknown that may redirect us

EXIT GATE

Defined challenge + decision authority + initial evidence.

2

WORKFLOW

Current workflow - where does it break?

01

02

03

04

Failure point

Constraints and exceptions

What the employee does

What technology does

Redesigned workflow

Employee test

Evidence and exceptions

EXIT GATE

New workflow tested by an employee, with evidence and exceptions.

3

DESIGN TEST

Concept

Critical assumption

Storyboard or prototype

01

02

03

User test

What held?

What changed?

EXIT GATE

Observed user behavior + an explicit revision.

4

DECIDE

STOP

KEEP

SCALE

Decision rationale

Result owner

KEEP or SCALE cannot be approved without visible workflow evidence and user evidence.

EXIT GATE

One decision + rationale + a named result owner.

5

IMPLEMENT

01

02

03

04

EXIT GATE

The decision has moved from the board into live work.

01

Approved decision

Decider signature: _____

02

Result owner

03

First evidence of value

04

Review date and forum

05

Reversal or escalation condition

DECISION COMMITMENT

Signed at Lab close and reviewed on this same record.

Copy Right To Linkgurus · A challenge does not become a decision because the presentation is persuasive; it must survive real work and user evidence.
